1) RoboCup German Open 2005

The fifth RoboCup German Open 2005 taked place from April 8-10, 2005 in the Heinz Nixdorf MuseumsForum in Paderborn, Germany.

64 teams from 12 countries have been registered for competitions in the RoboCup Leagues Middle Size, Small Size, Four-Legged, Soccer Simulation and Rescue Simulation. New at a RoboCup German Open were competitions in the Rescue Robot League (12 teams) and demonstration games in the Humanoid League (3 teams).

In RoboCup Junior 106 teams are registered.

At all more than 700 competitors participated in Paderborn.

2) Hannover Fairy 2005

This years Hanover Fairy convinced the exhibitors in Hall 17 with practical solutions for different sectors of industry.

At the Robotics User Centre the visitors could see some typical uses of industrial and service robots in new areas of application, such as food processing, pharmaceuticals or chemicals.

Very interesting was the installation of a full functional packaging line, realized in cooperation between different robot manufacturers, system integrators and company Homann Feinkost GmbH & Co. KG.

The Robotania Arena shows, that robots not only good for industries. They enter more and more new fields of application.
